

# BANANA FIBER YARN & FABRIC

Banana yarn is an ecological yarn made from natural banana fiber. It has a good tenacity index, absorption capacity and natural hypoallergenic quality. The fiber is extracted from agricultural residues after harvesting the banana fruit, thus it is sustainable and scalable, being a staple crop in the tropical and subtropical belt.

Our factory is located in India which is the largest banana producer in the world. Our vision has been to use natural raw materials and material transformation through natural processing. We soften the banana fiber in enzyme bath and further blend with organic cotton. The blended fibers are then spun to obtain yarns of different counts. Our yarn production is standardized to an optimum blend of 60 % banana fiber and 40 % organic cotton.

We are proud to present you a fabric that is based on natural fibers, ecologically processed and supports the livelihoods of banana growers in India. We weave our threads in special loom to make fabrics for different market segments. Our core segments are fabrics for apparel, home decoration and shoes with GSM varying from 80 to 800. We develop the fabrics as per the client requirements, thus able to customize the characteristics and finish of the fabric. Our product development team has the expertise to custom build yarns made with banana fiber and cotton, hemp, flax, viscose and other materials.

## BANANA FIBER FABRIC COLLECTION

Our swatch collection of banana fabrics in production covers a wide range from canvas to woven and knitted fabrics. We have a fabric production capacity of 5 tons per month. We are also happy to customize fabrics to meet your specific needs.

	SWATCH NUMBER	GSM	WIDTH	YARN COUNT	CONSTRUCTION
	60	740	107 cm	10s	CANVAS 5 ply Natural color
	50	620	122 cm	10s	CANVAS 4 ply Natural color
	40	520	152 cm	10s	CANVAS 3 ply Natural color
	30	490	183 cm	20s	NORMAL WEAVE 220s X 20s Natural color
	20	490	191 cm	20s	READY FOR DYEING 220s X 20s
	10	140	137 cm	30s	KNITTED FABRIC Single Jersey Natural color

## YARN SPECIFICATIONS

Composition *60 % Banana fiber + 40 % Organic Cotton*

Yarn count *N°10, N°16, N°20, N°22, N°30*

Dye type *Natural / Synthetic*

Availability *5 metric tons per month*

Load capacity *9 metric tons (20 HC Container)*

Cone Size *2 Kg*
